

SANJAY GOYAL

SENIOR WEB & MOBILE DEVELOPER

• Profile

Senior Web and Mobile Developer with 10+ years of experience in web development and design across PHP, Joomla (every version, 1.5 through 4.x) and WordPress. Built and shipped 100+ websites for small and mid-size businesses, with deep experience customizing Joomla and WordPress CMS installs and developing business applications on client/server platforms. Comfortable running delivery through Asana, GitHub and Trello.

Develops and integrates REST APIs, third-party services, CRMs, payment gateways, automation systems and advanced platform functionality — connecting the pieces that make a product work end to end.

Ensures Core Web Vitals, performance optimisation, caching strategies and best development practices are consistently implemented, so projects stay fast and maintainable long after launch.
